We have a well-founded reputation for undertaking Commercial and Industrial projects for public and private sector Clients. They appreciate our consistent quality, depth of knowledge, strong project management and the fact that we can be relied upon to provide a good return on investment.

We undertake work either on a traditional basis or as Design & Build contractors. In either case, Jerram Falkus enjoys the opportunity of working in Partnership with the Client Team from the earliest stages of the construction process.

Innovation and Continuous Improvement of the construction process play a large part in our ability to remain competitive and earn repeat business. Whether the solution involves new construction or the refurbishment of existing buildings, we strive to achieve our Client's goals and ensure Best Value is delivered.
